Map It

Become an active observer of your environment.

**MATERIALS**

- Paper and pencils

**LENGTH**

10–15 minutes

**STEP 1**

Have your paper and pencil ready.
Now, close your eyes and visualize a familiar location in your home.

**STEP 2**

Draw a diagram or map of the space from memory.
Use as much details as possible and be encouraged to
include text to label important details of your diagram.

**STEP 3**

Go to that place in your home and compare and contrast the details
that you’ve included on your diagram. What similarities are there?
Where are the differences?

**DISCUSSION**

What do you notice? Is anything surprising?
What additional details or information could you have included?
